

## Business Projects

One of the main reasons for having the Portal is to allow the Business Projects that TBN is involved in to be entered by those people running them. This means all the good work going on is publicised and the project managers can ask for help from the large pool of TBN members, friends and business contacts. It also means that other people can see what projects are happening and how they might get involved.

**Agriculture SubGroup**  
 The **Agriculture and Animal Husbandry SubGroup** is the forum for individuals with specific skills or interests in farming, bee-keeping, zoos and game reserves or in fact any project with an agricultural bias.  
 The table below lists the current Social Services projects, just click on the link in the "Description" column to go to the project details page. If the Photo Album column is set to Yes, click on the word Yes to go to the associated photo album. Click on the link in the "Manager" column to email the project manager.

New Project Name:  
 Add New Project

Filter projects by region or TGB if you want.

List of projects in this sector, in this case Agriculture and Animal Husbandry.

Click on Project name to go to the project details

To add a new project enter a short project name and press the 'Add New Project' button. See 'Add a project' User guide for more information.

### Hints and Tips:

- Projects are listed in alphabetical order based on the Project name.
- The announcement box on the top right carries the last three announcements made across all the projects in this sector.

## Viewing a Business Project

It's pretty obvious.

Main page has all the key information. Click the tabs at the top for the different pages of information.

Contact the Project Manager by clicking on their name. This brings up a screen to send them an email.

**Rural Healthcare**  
 Summary Details Background

Project Summary

Project Type: Social Services

Region: Asia  
 Country: North India  
 Town: Herbertpur and Ultraula  
 Location: EHA Hospital  
 LocalPartners: Emmanuel Hospital Association  
 SiteContact:

TBG: [Healthcare](#)  
 Manager: [Jon Smith](#)  
 OtherPartners: Honora Smith, Martin Morse

PhotoAlbum: [View](#)  
 Date Started: 01 Nov 2004

Overview  
 The aim is to help groups, such as NGO or FBO, who are setting up rural healthcare services for the poor. The project provides help in planning the project, especially on how best to plan the placing of clinic to maximise the reach in a given geographic area. It also models the factor that can help make the healthcare project sustainable. The information produced by the models can also help support applications for funding to start a project.
